

CHIRP

Children and Hoosiers Immunization Registry Program

Northern Wells Community Schools participates in CHIRP, a free and innovative online system that scores and updates immunization records of both children and adults in Indiana. The State of Indiana now requires all public school systems to gather this information each year. It is confidential and free.

I give Northern Wells Community Schools Nurses permission to register my student's immunization records onto the Indiana State Department of Health's Children and Hoosiers Immunization Registry Program (CHIRP).

I understand that the information in the registry may be used to verify that my student has received proper immunizations and to inform me of my student's need to be vaccinated according to recommended immunization schedules.

I hereby consent to the release of such information.
